Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I, for one, work in the telecommunications industry & am truly tired of the regulations & constraints the FCC as well as state regulatory commissions place on our industry. It's time to find another way to make your money & justify your existence.

Why don't you go after the stinking, low-life, cheating, stealing telecommunications companies that are bankrupting us all?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Melinda Taggart
